**SEVEN
485
FINAL EDITION**

A DECADE LONG **LEGEND**

TIME, THE ULTIMATE TEST.

For over ten years the Seven 485 has been the undisputed champion for thrill-seekers across Europe. Not only representing our flagship Seven in Europe, but also our most powerful naturally-aspirated engine currently in production.

Since its inception, we've continued to improve, adapt and perfect the 485 formula. Over the years there have been numerous interpretations; from the advanced CSR chassis, to updated power outputs and an array of new options; but our unrelenting stubbornness for driving perfection has remained unchanged.

Now, as we enter the final production run of a legendary Seven, it's the opportunity to own a piece of history. It's time for the ultimate embodiment of the 485. It's time to own a legend.

IT'S TIME FOR THE 485 FINAL EDITION.

THE FINAL EDITION

LIMITED

The Final Edition brings a triumphant close to the 485 narrative. These limited-run models are adorned with a selection of finishes never-before-seen on a production Seven.

Five specially selected paints, paired with new satin black 'Final Edition' graphics and badging are available on all vehicles.

In addition to an upgraded interior, each vehicle will be completed with an identification number plaque on the dashboard.

The sign of a true Seven is that it is as unique as you are. All final editions can be enhanced further with our Signature Range, ensuring that you can create an entirely personal specification which reflects your individuality.

JUST 85 VEHICLES WILL BE MADE FOR EUROPE.
